PROFESSIONAL SUMMARY

MERN Stack Developer with a strong foundation in building responsive, scalable web applications using React.js, JavaScript (ES6+), and TypeScript. Proficient in full-stack development across the complete MERN ecosystem — MongoDB, Express.js, React.js, and Node.js — alongside modern tooling including Vite, Zustand, TanStack Query, and Supabase. Passionate about clean architecture, component-driven development, and delivering seamless user experiences. A fast learner who thrives in collaborative Agile team environments and takes initiative to solve real-world problems through code.

EDUCATION & TRAINING

Digilians

MERN Stack Development Scholarship

Jan 2026 – Jun 2026

Accredited by the Egyptian Military Academy & Ministry of Communications

Higher Institute of Advanced Studies

Bachelor's Degree in Management Information Systems (MIS)

Graduated: Aug 2022

PROFESSIONAL EXPERIENCE

Digilians

MERN Stack Developer Trainee

Jan 2026 – Jun 2026

- Completed training in CS Fundamentals, HTML5, CSS3, Bootstrap, and UX/UI Design with Figma.
- Built 3+ full-stack apps using JavaScript, React.js, Node.js, Express.js, MongoDB, Mongoose, and Supabase.
- Applied SOLID Principles, Design Patterns, and clean code best practices across 3+ projects, improving code maintainability and scalability.
- Oversaw version control across 4+ repositories using Git/GitHub, REST API integration, Docker basics, and functional documentation in an Agile environment.

Route IT Training Center

Frontend Web Developer Diploma

Dec 2023 – Jun 2024

- Engineered scalable, responsive, cross-browser compatible web applications using React.js and modern JavaScript (ES6+).
- Built 20+ reusable UI components following component-driven development principles and clean code architecture.
- Integrated 5+ RESTful APIs using Axios and Fetch API; overseeing state with Context API and Redux.
- Optimized component rendering, reducing load time by approximately 30% through performance optimization techniques.
- Applied form validation using Formik and Yup across 8+ project forms, reducing input errors significantly.

PROJECTS

Tebk – Medical Supplies E-commerce Platform & Admin Dashboard (Graduation Project)

React 19, Vite, React Router, Zustand, TanStack React Query, Supabase, Tailwind CSS, Radix UI, React Hook Form, Zod, Framer Motion, Cloudinary, Lucide React, Custom i18n

github.com/Ahmedghoneim/Tebk — tebk.store — admin.tebk.store

- Architected a full-stack medical supplies e-commerce platform (“Tebk”) and an integrated admin dashboard using React 19, Vite, and React Router.
- Integrated Supabase to handle backend features, real-time database functions, user authentication, and synchronizing dynamic user data directly into the dashboard.
- Implemented client-side state management using Zustand combined with TanStack React Query for data caching.
- Crafted a responsive, accessible interface using Tailwind CSS, Radix UI primitives, and Framer Motion animations.
- Designed web forms with strict validation schemas using React Hook Form and Zod.
- Incorporated Cloudinary for image management and engineered a custom multi-language translation framework (AR/EN JSON).

Shoppr – E-Commerce Web Application

React 18, Vite, React Router DOM, Tailwind CSS, Framer Motion, Zustand, Node.js, Express.js, MongoDB, Mongoose, JWT, bcrypt, multer, PWA

github.com/Ahmedghoneim/Shoppr — [shoppr on Vercel](https://shoppr.vercel.com)

- Engineered a fully responsive e-commerce platform with Framer Motion animations and Recharts dashboards.
- Directed global state (auth, cart, wishlist, theme, language, notifications) using Zustand.
- Configured PWA Service Worker for installable behavior, offline fallback, and data caching.
- Architected a Node.js/Express.js REST API managing auth, products, orders, admin, and AI features.
- Secured API using JWT, bcrypt, helmet security headers, and express-rate-limit; deployed to production.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, Sass, Bootstrap, Tailwind CSS, Radix UI, Material UI, JavaScript (ES6+), TypeScript, React.js, Vite, React Router DOM, Zustand, TanStack React Query, Redux Toolkit, Context API, Next.js, Framer Motion, React Hook Form, Axios, Responsive Design, OOP, SOLID Principles, SEO Basics, Data Structures & Algorithms

Backend & Databases: Node.js, Express.js, RESTful APIs, MongoDB, Mongoose, Supabase, JWT, bcrypt, multer, helmet, express-rate-limit, Docker (Basics)

Tools & Design: Git, GitHub, Figma (UI/UX), Cloudinary, PWA Service Worker, PostCSS, CI/CD Basics

LANGUAGES

Arabic: Native — **English:** Fluent
