PROFESSIONAL SUMMARY

MERN Stack Developer with a strong foundation in building responsive, scalable web applications using React.js, JavaScript (ES6+), and TypeScript. Proficient in full-stack development across the complete MERN ecosystem — MongoDB, Express.js, React.js, and Node.js — alongside modern tooling including Vite, Zustand, TanStack Query, and Supabase. Passionate about clean architecture, component-driven development, and delivering seamless user experiences. A fast learner who thrives in collaborative Agile team environments and takes initiative to solve real-world problems through code.

PROFESSIONAL EXPERIENCE

SpaceTech

Alexandria, Egypt

Frontend / MERN Stack Developer Intern

Jul 2026 – Present

- Accepted into an intensive internship program focused on engineering scalable, production-grade frontend architectures.
- Collaborating with cross-functional software teams to build responsive UI components and integrate complex REST APIs.
- Utilizing modern React practices, performance optimization, and state management techniques in an active Agile environment.

Digilians

Jan 2026 – Jun 2026

MERN Stack Developer Trainee (Accredited by Egyptian Military Academy & MCIT)

- Completed training in CS Fundamentals, HTML5, CSS3, Bootstrap, and UX/UI Design with Figma.
- Built 3+ full-stack apps using JavaScript, React.js, Node.js, Express.js, MongoDB, Mongoose, and Supabase.
- Applied SOLID Principles, Design Patterns, and clean code best practices across 3+ projects, improving code maintainability and scalability.
- Oversaw version control across 4+ repositories using Git/GitHub, REST API integration, Docker basics, and functional documentation in an Agile environment.

PROJECTS

Derby – Sports Facilities & Court Booking Platform

React 18, Vite 5, Tailwind CSS, Axios, React Router DOM, Zod, React Hook Form, Paymob Pixel SDK, Google OAuth, ASP.NET Core API

github.com/DerpyApp/Derby-Dashboard — [derby on Vercel](#)

- Led the frontend development for a collaborative sports court reservation platform featuring multi-city discovery and real-time availability.
- Integrated Paymob Pixel SDK for end-to-end card payments with custom dark-neon Shadow DOM styling and payment intent lifecycles.
- Configured OAuth (Google/Facebook) authentication and OTP recovery flows backed by persistent JWT sessions and Route Guards.
- Consumed RESTful ASP.NET Core Web API endpoints for live slot availability, dynamic booking states, and downloadable user receipts using Axios interceptors.

Tebk – Medical Supplies E-commerce Platform & Admin Dashboard (Graduation Project)

React 19, Vite, React Router, Zustand, TanStack React Query, Supabase, Tailwind CSS, Radix UI, React Hook Form, Zod, Cloudinary

github.com/Ahmedghoneim/Tebk — [tebk.store](#) — [admin.tebk.store](#)

- Architected a full-stack medical supplies e-commerce platform (“Tebk”) and an integrated admin dashboard using React 19, Vite, and React Router.
- Integrated Supabase for real-time database functions, user authentication, and dynamic user data synchronization directly into the dashboard.
- Implemented client-side state management using Zustand combined with TanStack React Query for caching, with strict form validation schemas using Zod.
- Engineered a custom multi-language translation framework (AR/EN) and leveraged AI tools (Claude AI) to accelerate development velocity.

ShoppR – E-Commerce Web Application

React 18, Vite, React Router DOM, Tailwind CSS, Zustand, Node.js, Express.js, MongoDB, Mongoose, JWT, PWA

github.com/Ahmedghoneim/ShoppR — [shoppR on Vercel](#)

- Engineered a fully responsive e-commerce platform with Framer Motion animations, Recharts dashboards, and Zustand global state management.
- Configured PWA Service Worker for installable behavior, offline fallback, and architected a Node.js/Express.js REST API secured with JWT and bcrypt.

EDUCATION

Higher Institute of Advanced Studies

Graduated: Aug 2022

Bachelor's Degree in Management Information Systems (MIS)

COURSES & CERTIFICATIONS

Route IT Training Center

Dec 2023 – Jun 2024

Frontend Web Developer Diploma

- Engineered scalable, responsive, cross-browser compatible web applications using React.js and modern JavaScript (ES6+).
- Built 20+ reusable UI components following component-driven development principles and clean code architecture.
- Integrated 5+ RESTful APIs using Axios and Fetch API; overseeing state with Context API and Redux.
- Optimized component rendering, reducing load time by approximately 30% through performance optimization techniques.
- Applied form validation using Formik and Yup across 8+ project forms, reducing input errors significantly.

SKILLS & KEYWORDS

Technical Skills (Frontend): HTML5, CSS3, Sass, Bootstrap, Tailwind CSS, Radix UI, Material UI, JavaScript (ES6+), TypeScript, React.js, Vite, React Router DOM, Zustand, TanStack Query, Redux Toolkit, Context API, Next.js, Framer Motion, React Hook Form, Axios, Responsive Design, OOP, SOLID Principles, SEO Basics, Data Structures & Algorithms

Backend & Databases: Node.js, Express.js, RESTful APIs, MongoDB, Mongoose, Supabase, JWT, bcrypt, multer, helmet, express-rate-limit, Docker (Basics)

Tools, Design & Soft Skills: Git, GitHub, Figma (UI/UX), Claude AI, Prompt Engineering, Cloudinary, PWA Service Worker, PostCSS, CI/CD Basics, Agile Teamwork, Problem Solving, Communication, Adaptability

LANGUAGES

Arabic: Native — English: Fluent
